

REMARKS

Claims 1-6, 11, 12, 14-25, and 27 are pending in this application and under consideration. The specification and claims 24 and 25 have been amended. Support for the amendments to claims 24 and 25 may be found in the claims as filed originally.

Interview Summary

The Applicants submit the following summary of the telephone interviews that took place April 15 and 17, 2008 between the undersigned representative of the Applicants and the Examiner.

Telephone Conference:

The Applicants thank the Examiner for the many courtesies extended to the undersigned representative of the Applicants during the telephone interviews that took place April 15 and 17, 2008. The Examiner called to request that the specification and claims be amended as shown above, before the application would be allowed.

The Examiner, in particular, requested during the April 15, 2008 telephone conference that the paragraph at page 38, lines 1-10 of the specification be amended to make clear that the "communication medium" is part of the system, rather than part of the "computer-readable recording medium." The Examiner requested during the April 17, 2008 telephone conference that claims 24 and 25 be rewritten to depend from claim 20. Since the subject Second Supplemental Amendment amends the specification and claims as requested by the Examiner, the Application is believed to be in condition for allowance.

If there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

Application Serial No. 09/881,737
Second Supplemental Amendment filed April 25, 2008
Further to Supplemental Amendment filed March 27, 2007

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP

Date: April 25, 2008
